

Enhanced Rose gold by [@theparlourlife](#)

Rose gold is a perfect marriage of blushed pink and gold. It should be individualized to suit your clients complexion. More rose for a cooler vibe or intensify the golden hues for a warmer glow.

COLOR FORMULAS

On previously lightened hair use a bespoke mixture of 2 Color Fresh Create shades: Nu-dist Pink and Pure Violet mixed in a ratio of 10:1 applied on to the root area and develop for 20 min, combed through to the ends for a subtle hint of rose for the last 5 min.

STYLE

An ideal product to create a soft textured wave is EIMI Sugar Lift. Spritz through damp hair to give the hair the right amount of grip for the blow-dry. Always use EIMI Thermal Image before tonging the hair in large sections for the perfect loose beach wave.
