MODERN CUTTING TUTORIALS

VAIL CUT

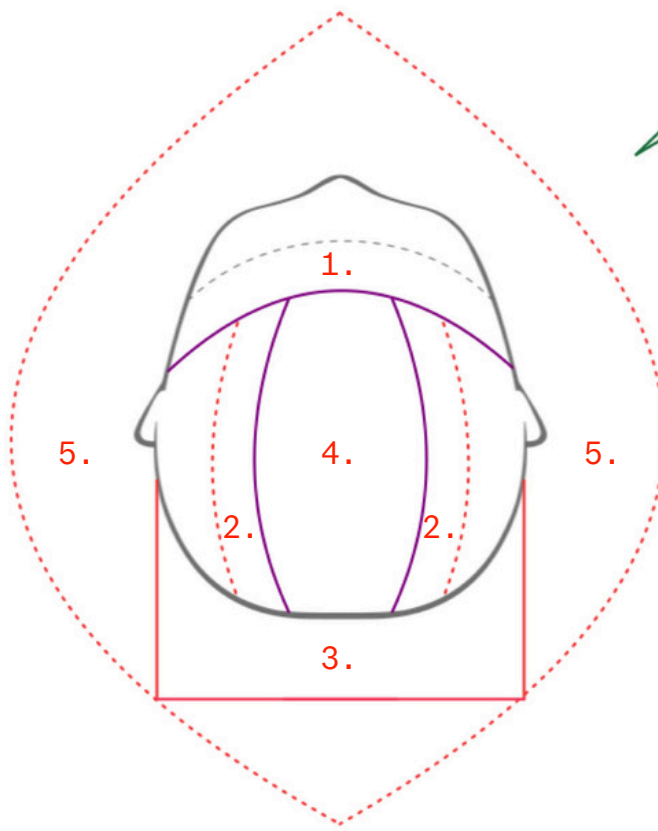

5.
Personalise with elevated sections and point cut.

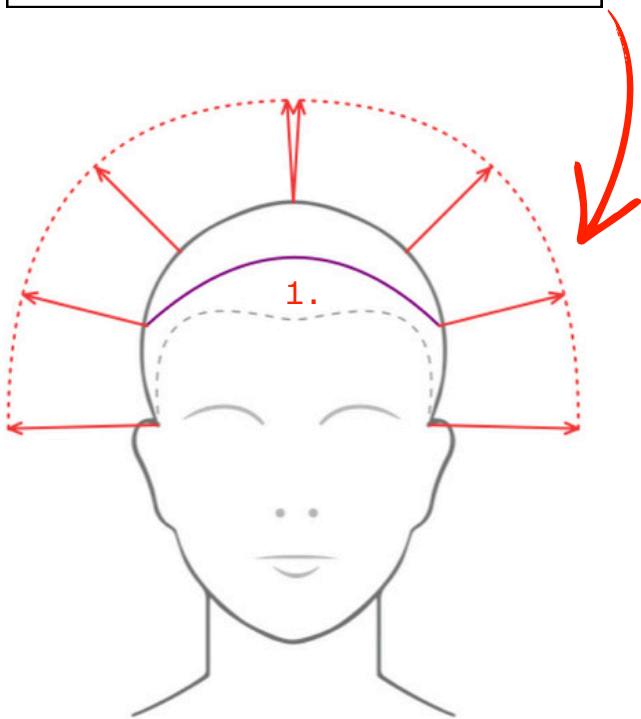

2&3.

Elevate section 2 up and cut a straight line in space. On section 3 back cut short to long layers with scissors, from centre back around to front side section.

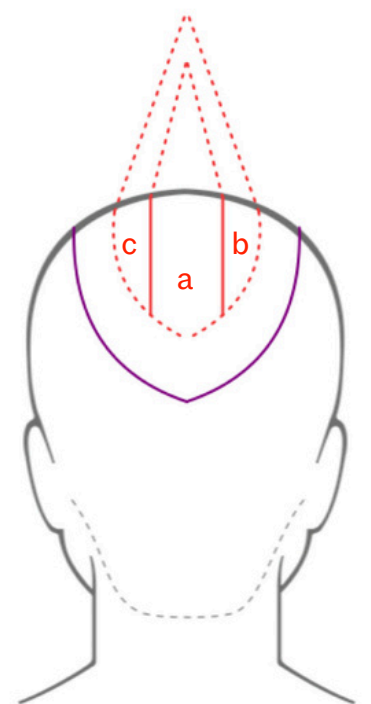

1.
Point cut an elevated round layer from the central guide to the lower ear.

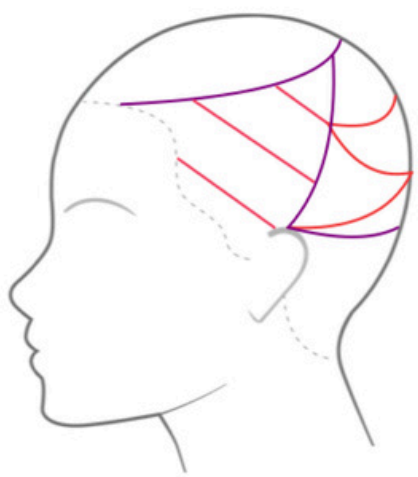

4.

Create a layer guide in subsection a. Then overdirect subsections b. & c. into the guide.

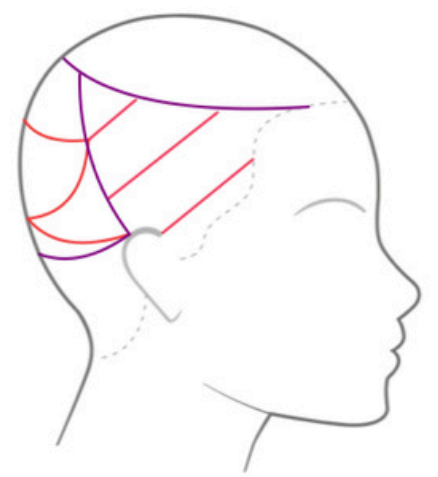

MODERN CUTTING TUTORIALS

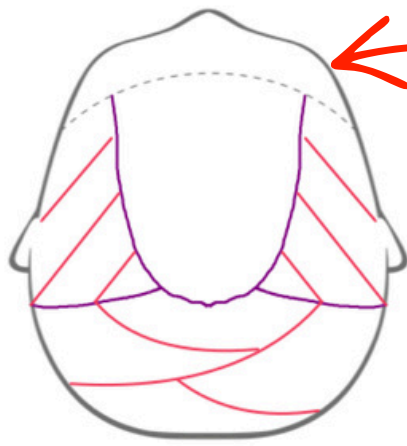

BARCODING

2&3.
Diagonal forward slices

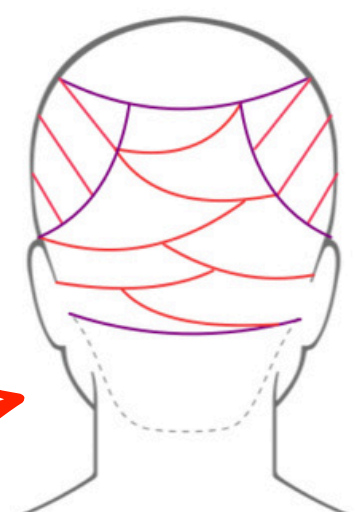

TIP
Alternate application on mid section of the slice, close to root & end section of the slice.

TOP SECTION
Leave as a vail section, don't lighten.

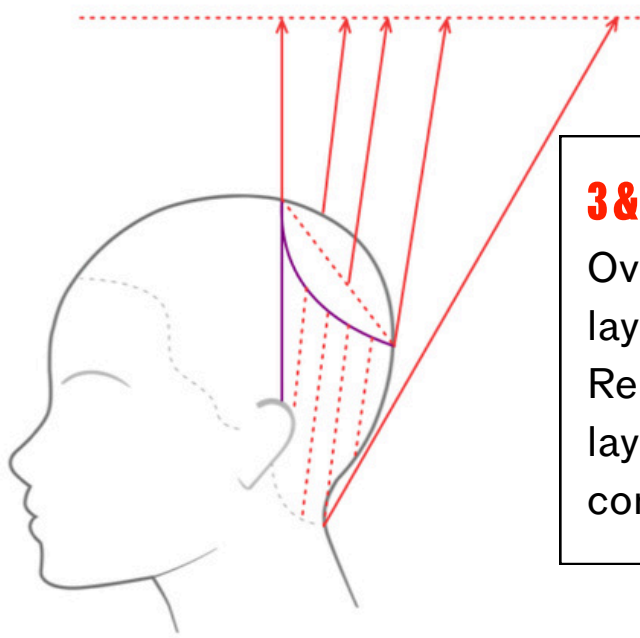

1.
Use interlocking diagonal slices.

MODERN CUTTING TUTORIALS

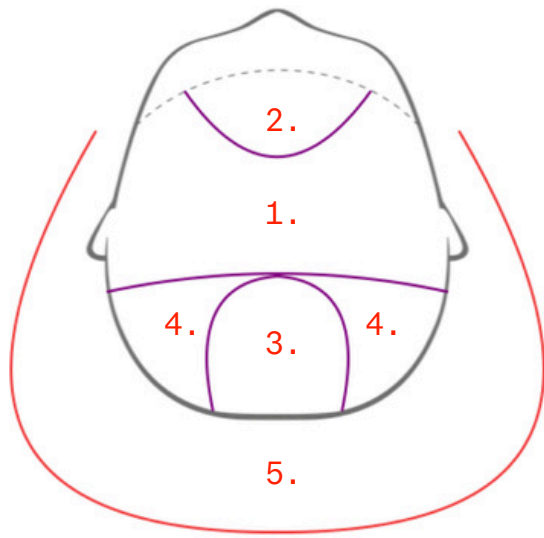

THE NIXIE

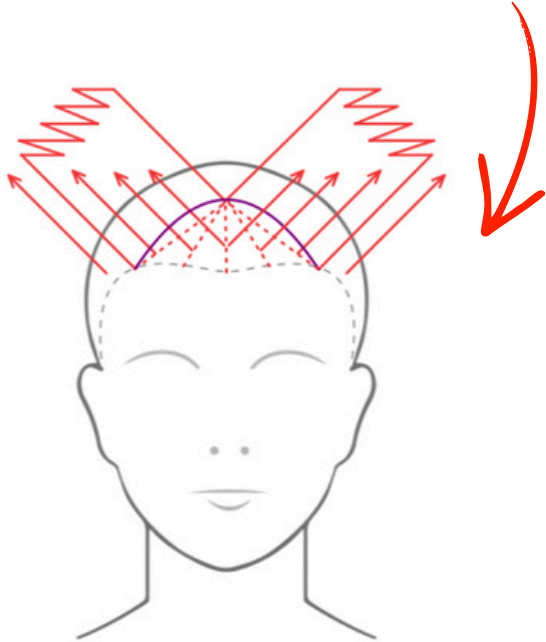

3&4.
Overdirect section 3, crown layers, into a centre guide. Repeat with section 4, back layers, directed up to connect into section 3.

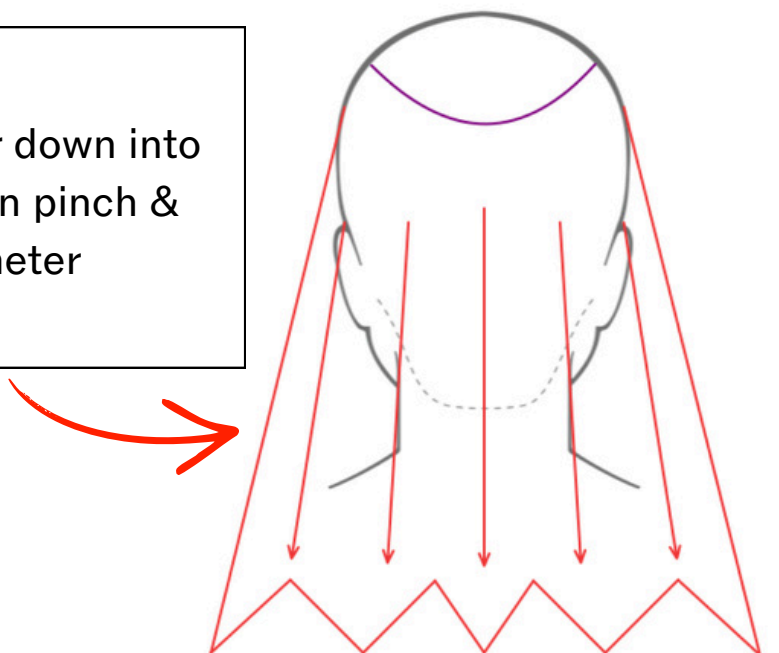

1.
Create a centre guideline and over direct the sides to the guide.

2.
Use diagonal over direction and using the feather blade, skim cut the fringe layers. Repeat on both sides.

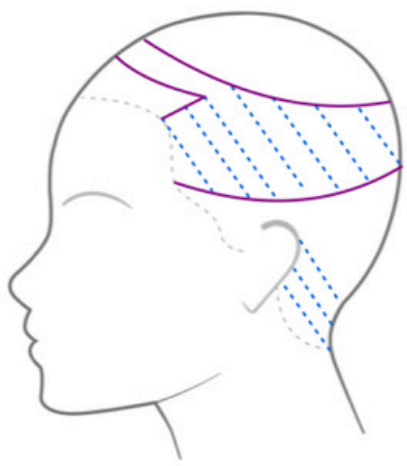

5.
Comb all the hair down into a natural fall, then pinch & skim a soft perimeter outline.

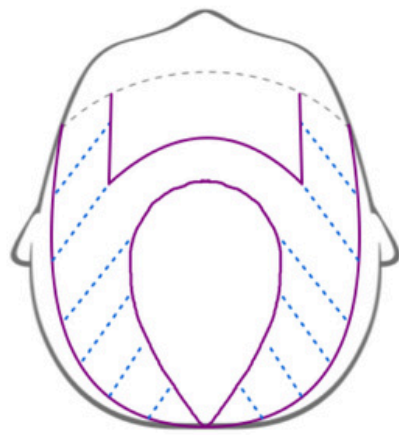

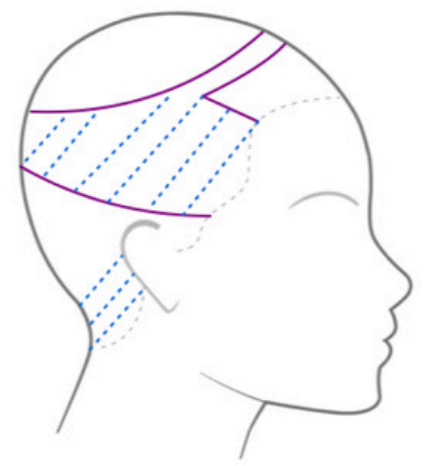

MODERN CUTTING TUTORIALS

TEXTURED FOILIAGE

2&3.

Start at the hairline and place 2 heavy slices, lightly teased in to both sides. then continue round the mid section with regular foliage slices.

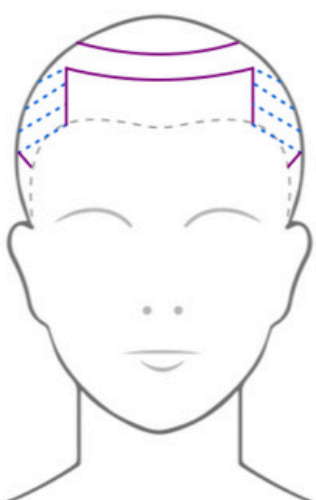

TIP

Apply your chosen global colour after applying the foils. Once developed remove all colour and foils and apply your desired creative target shade.

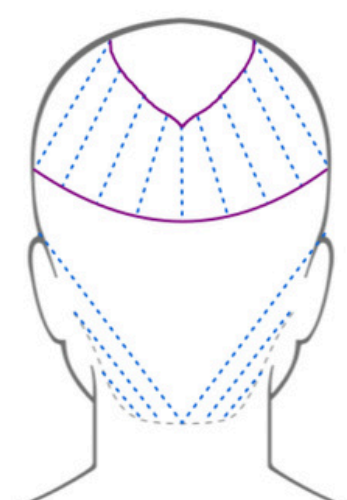

4.

Depending on the length of the fringe section apply, un-teased slices in the fringe as required.

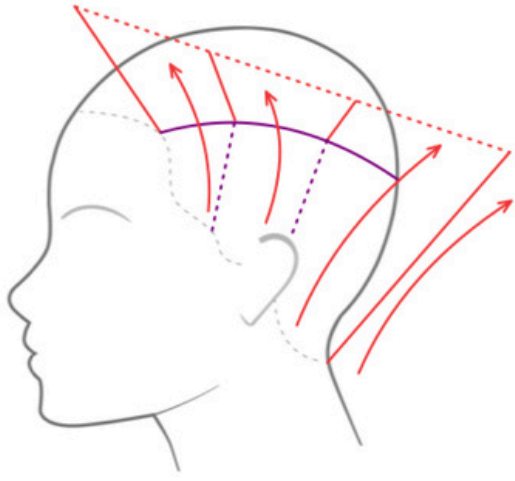

1.

Place 3 back to back foliage slices on both sides of the nape section.

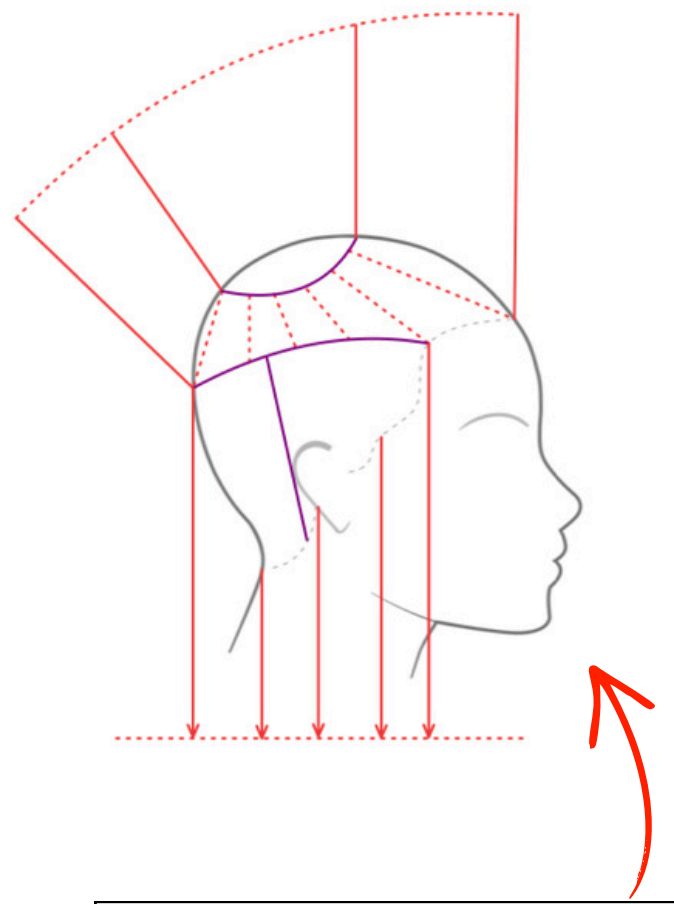

MODERN CUTTING TUTORIALS

INSIDE OUT BOB

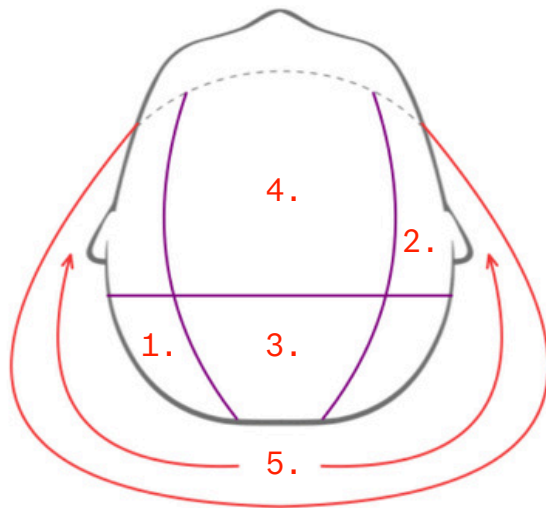

1&2.

Start by elevating the underneath sections to block layer through the nape and front side sections.

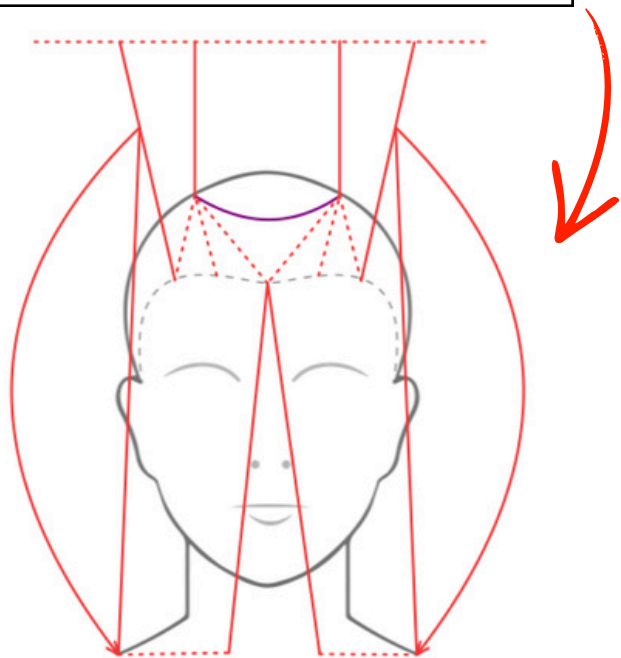

3&4. (pt 1)

From the crown section, point cut a guide. Then starting with a back section work to the front elevating each section to connect to the guide in the crown.

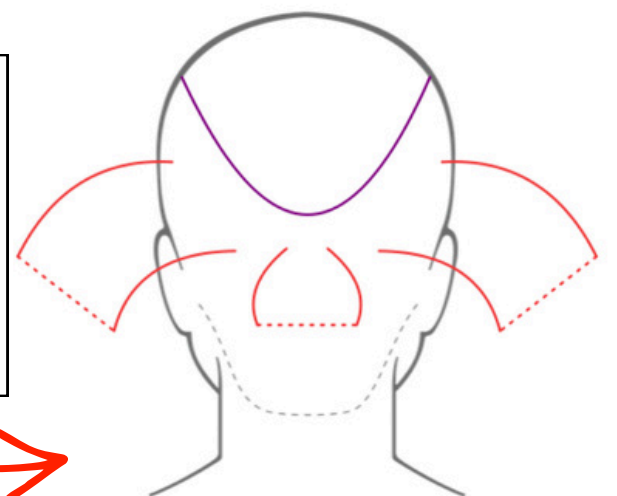

3&4. (pt 2)

Wrap dry into a natural fall and blend the excess length to the perimeter line.

5.

Personalise the undercut areas with soft point cutting.

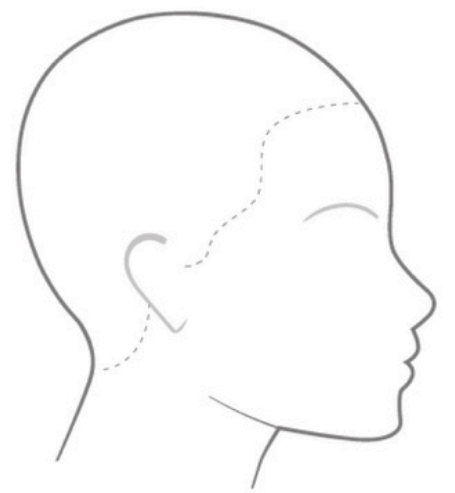

MODERN CUTTING TUTORIALS

MAXXED OUT BLONDE

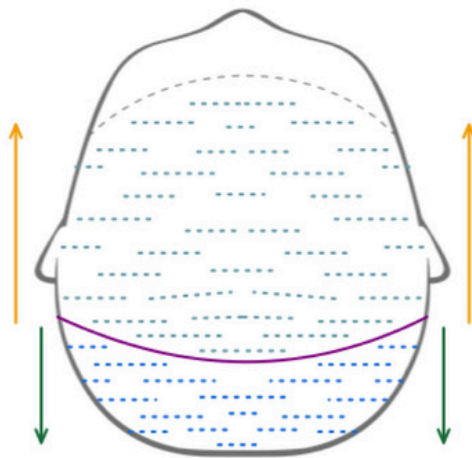

2.

Work from the radial parting to the front hairline, in fine brickwork sections.

1.

Start by taking a radial section from ear, to natural crown, to ear. Take fine brickwork sections, starting at the crown, working down through the nape.

“

TIP

Mix little and often to get consistant & even energy from the product.

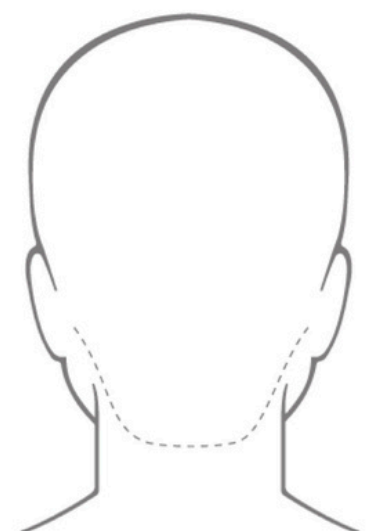

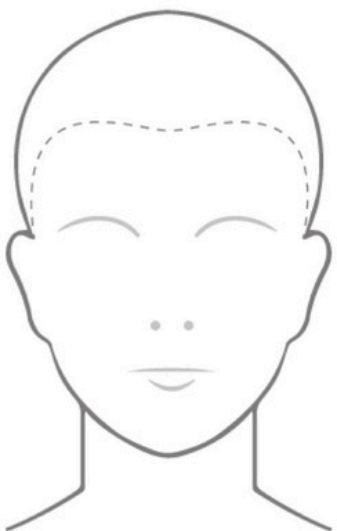

”

“

TIP

Ensure you take fine sections for even saturation & apply enough product that you application looks like marshmallow, without overlapping.
