

TRANSFORMATION AWARD

ABOUT THE CATEGORY

In this category we want you to showcase a clear transformation of both color and cut, that highlights the craftsmanship. We're looking for artistry and impeccable craftsmanship with a personal touch. We want to see your best color techniques, placements, and services to achieve high-quality hair color results inspired by the MONOCROMATIC color trend.

THE MONOCROMATIC COLOR TREND IS:

MULTIDIMENSIONAL TONE-ON-TONE COLOR inspired from modern minimalism, blends personalization, and refined tone-on-tone color with the elevated naturals palette, grounding earth tones, and punchy expressive shades to harmonize with client's skin tone, and personality.

In beauty, consumers are moving away from overwhelming routines toward streamlined, purposeful choices, without compromising on performance. They look for simplicity & personalization. It's a movement towards Refined beauty.

In color, it translates into lower contrast, tone on tone and natural-looking shades, that will look effortless but still elegant: the monochromatic trend - Personalized tone-on-tone color to elevate your natural beauty. We want to see beautiful hair and colors that compliment and uplift the unique beauty of the model.
